

Site Code of Considerate Practice

The Site Code of Considerate Practice forms the basis of all the Scheme's requirements.

Considerate

Everyone affected by the project should be advised before work starts. Nuisance caused by deliveries, traffic and parking should be minimised. Diversions should be clearly signed with special attention paid to the needs of traders and those with sight, hearing and mobility difficulties.

Environment

The potential environmental and ecological effects of site operations should be identified and evaluated, with appropriate action taken to minimise all forms of pollution. Every effort should be made to reduce, reuse and recycle waste. Materials should be obtained from sustainable sources, and local resources used where possible. The site should make a positive contribution to the natural environment.

Appearance

The site should be doing all it can to create an image of which the industry can be proud. The site perimeter, the offices and all welfare facilities should be clean, tidy and well presented, and all materials stored neatly. Waste, rubbish and litter should not be allowed to accumulate. Dusty operations should be managed to prevent any inconvenience. Damage caused by graffiti should be repaired quickly.

Good Neighbour

The site should have a positive influence on the local community. The site manager should interact proactively with residents, businesses, schools, etc throughout the project to inform them about site activity and to pre-empt and avoid complaints. Any complaint should be logged and handled positively to achieve a satisfactory outcome for all concerned.

Respectful

Everyone on site should help to create a positive image and maintain respectable and safe standards of dress and behaviour. Improper conduct and language should be subject to severe disciplinary action. Pride in the management and appearance of the site, its temporary facilities and the surrounding area should be shown at all times.

Safety

Systems should be in place so that construction work is carried out with care and consideration for the safety of the public as well as for those visiting and working on site. No site should be a security risk to others.

Responsible

Considerate Constructors should be aware of their obligations to personnel, act in a professional and conscientious manner, and play a part in the development of the industry's future workforce.

Accountable

The site manager should promote the Scheme's aim of 'improving the image of construction'. Everyone associated with the site should understand and comply with the Site Code of Considerate Practice. The training and development needs for all on site should be identified and addressed.
