CHILTERN TUNNEL – VENTELATION SHAFTS

Dear EA,

Further to our request of 5th April (210414/JBa09) regarding an application by HS2 to construct the Chiltern Tunnel, can you confirm that this request includes the associated ventelation and intervention shafts ? If not, have these been submitted as separate requests for approval ?

Would you please supply copies of the risk assessments submitted in connection with each shaft ?

Regards,

Dr James Conboy
(for the Chiltern Society)
