

Actions from Central Chilterns Community Forum – 11th July 2012

Action no.	Action	Progress	Commentary
1	HS2 Ltd to organise a pan-Chilterns meeting	On-going	Provisional dates 24th (day/evening) or 25th October (day) at Great Missenden Memorial Centre
2	Revised terms of reference to be discussed and finalised by next meeting	On-going	Terms of reference still in discussions regarding clause relating to the consideration of proposals in preparation of the hybrid bill
3	HS2 Ltd to consider sharing key points arising from bilateral meetings at each community forum	Complete	Overarching issues discussed circulated as part of agenda pack
4	HS2 Ltd to confirm the position in relation to the application of ecosystem services methodology.	Complete	In advance of the announcement in January 2012 the Department for Transport undertook a valuation of the environment in accordance with WebTAG guidance. This included a quantitative valuation of impacts including noise and landscape. For other environmental matters such as the historic environment, the assessment was qualitative. HS2 Limited will follow current guidance and legal requirements through the Environmental Impact Assessment (EIA) process which is being undertaken. We will provide any information supporting the hybrid bill as necessary for the Department for Transport including that needed for a further WebTAG analysis, if required.
5	All anticipated presentations should be circulated to the forum as part of the agenda pack at least two weeks before the date of the meeting.	Not provided	As a commentary is needed to explain and clarify the content of these slides, we have provided an overview of the tabled presentations within the body of the accompanying note and will be providing hard copies of the presentations during the Community Forum. It is not the norm to provide slides in advance of a presentation whether that is at a seminar, a conference or a Community Forum as they are designed to be talked through by the presenter. As such we do not propose to circulate these slides in advance, but to circulate them as part of the minutes - adding them to the website following the forum.

6	Simon Hook to send Chilterns-wide mitigation measures to HS2 Ltd.	Complete	Mitigation measures document received and submitted to engineering and environmental teams for further consideration
7	HS2 Ltd to begin to build issues register of key forum concerns regarding the route	On-going	Issues register currently being compiled to capture key themes arising from forum meetings
8	HS2 Ltd to ensure the new forum name is included on HS2 Ltd website	Complete	Updated: http://highspeedrail.dft.gov.uk/node/5421
9	HS2 Ltd to only include final versions of documentation on HS2 website	On-going	Agreed
10	Simon Hook to provide consolidated list of questions to HS2 Ltd	Complete	Received
11	HS2 Ltd to aim to respond to all tabled questions within 1 calendar month	On-going	Response to questions received on 12/07/12 circulated on 10/08/12
12	HS2 Ltd to provide further information about anticipated road closures	Complete	HS2 Ltd will provide updates on anticipated road closures as part of the engineering update
