

**Table 1 Suggested evidence for your petitioning points**

Petitioning point	Local Authority Evidence	Resident/Community Evidence, and where to get this evidence
All  (Explaining why you are affected)	Map of Buckinghamshire and length of HS2  Key information and statistics	Location of your property relative to the line/ construction site/ construction route etc. Mark on distance between significant sites.  Use HS2Ltd.'s maps (mark on your property and scan in the document), aerial photos (from Google maps) or OS maps with key HS2 structures drawn on.
Traffic impacts	Outputs from technical reports  Calculations  Geographical Information System (GIS) mapping	Location of your property/ roads you commonly use relative to construction routes. Demonstrate how you will be affected directly. If you propose alternative routes mark these on in one colour and HS2 Ltd.'s proposal in another colour.  Use map books, Google maps, OS maps or hand drawn maps. These can be drawn on and scanned in.  Use own photos of roads (if you think these are unsuitable for construction vehicles), or photos of heavy traffic and dangerous junctions (if you think construction traffic would worsen the situation).
Design (e.g. of bridges, vent shafts etc.)	Landscape characteristic assessments  Policies and legislation	Location of structures relative to your property, demonstrate how you are personally affected.  Photo of the area affected, photo from your property showing the site that will be affected. Photos of HS2Ltd.'s proposal (from photo montages). Pictures/ photos/ drawings of alternative options (e.g. from other projects, these may be available online).
Noise	Technical information from noise specialists.  Policies and legislation	Maps showing distance between property and source of new noise. Map showing distance between property and main source of current noise (e.g. main road).  Own photos showing the tranquillity of the area in its current state.
Flooding	Technical data showing water	Photos of areas flooded (if you think HS2 would worsen this), these can be own photos or online

impacts	<p>movement around the landscape.</p> <p>Policies and documents outlining best practise techniques for reducing flood risk.</p>	<p>photos.</p> <p>Map showing your property/ routes you use relative to the area of flood risk (HS2 Ltd.'s map, Google map, OS map)</p>
Chilterns tunnel	Key outputs from technical commissioned work	Map showing how this would affect you directly e.g. location of your property/ transport networks you use relative to the current proposal.
Land take	Camden is leading on principles to do with the planning process.	<p>Map or aerial photo showing HS2 Ltd.'s proposal in one colour and your proposal in another colour. Show how land take could be reduced or moved to a more appropriate area.</p> <p>Google maps, OS maps, HS2 Ltd.'s map books (these will already have the HS2 proposal drawn on). Maps can be drawn on and scanned in.</p>
Hours of construction	Camden is leading on Principles to do with the planning process.	Use own photos to demonstrate the tranquillity of the area in the morning/ evening. Map showing location of your property relative to the nearest main noise source.
Construction vehicles avoiding rush hour/ school rush	Traffic count data / graphics to show evidence of current situation and expected impact of HS2	<p>Photos of current traffic during rush hour and school rush.</p> <p>Demonstrate how this affects you directly e.g. mark on maps the route you use during these times, and the construction route that HS2 Ltd proposes.</p>
Impacts on specific habitats	Reference / quotes from Policy / legislation.	<p>Own photos of woodlands/ habitats.</p> <p>If applicable, how you use these woodlands (e.g. parts you visit for recreational purposes), and how the proposal will affect these sites.</p> <p>Covers of policies/ guidance on best practise.</p>
Cultural Heritage	Buckinghamshire Historical Environment Records. Photos/ Maps.	Photos of specific sites. Maps showing the location of your property relative to these sites

		Buckinghamshire Historic Environment Records: <a href="http://www.buckscc.gov.uk/bcc/archaeology/Historic_environment_record.page">http://www.buckscc.gov.uk/bcc/archaeology/Historic_environment_record.page</a>
Public Rights of Way (PRoW)	GIS mapping of new suggested proposals  Reference to legislation and precedents from other projects/developments	OS maps showing current PRoW. HS2Ltd maps showing amended PRoW. Or hand drawn maps showing both – different colours.  If you propose an alternative route, mark this on the map alongside HS2Ltd.'s proposal.  Photos showing views from PRoW.
Minerals and Waste (Sustainable Placement)	National and local policy, HS2 Ltd.'s own policy.  Technical reports on alternative locations and modes of transport	Map showing location of sustainable placement relative to your property. Use HS2 Ltd.'s maps and Google maps. Use own photos.
